First Europe-wide ...

- Route Service
 - Pedestrian Routing including stairs, passways etc.
(as far as mapped by OpenStreetMap)
 - Bicycle Routing
 - Route Service completely based on OGC OpenLS standards.
 - OpenLS Location Utility Service (Geocoder/ReverseGeocoder)
 - Accessibility Analysis Service
 - OpenLS Directory Service (POI search)
- ... based on user-generated, collaboratively collected free geodata.

To get more information how to use Map&Routing, please click [Help!](#)

The services from OpenRouteService are also used in 3D within the project www.OSM-3D.org
